Sir:

The Declaration of Inventorship lists GB application 0222014.3 as a prior application with priority date before that of the priority application, when in fact it is the priority application, as is evident from (1) the PCT request, (2) the cover sheet of the PCT publication, and (3) the ADS filed March 23, 2005.

The PCT request timely satisfied the requirements of 37 CFR 1.55 vis-a-vis claiming foreign priority, and the ADS made it clear that the priority claim was maintained.

We are willing to file a new 1.63 declaration if need be, but this case is being abandoned in favor of a divisional application filed on even date herewith.
